

Welcome to the new “new normal”.

Fixed Income.

In a world of near-zero interest rates, traditional fixed income offers:

- Very little income
- Limited upside/hedging
- Potential for significant losses when rates rise

In the past, advisors compensated for low yields by going down the credit spectrum and into more illiquid and opaque investments.

Fixed Income 2.0.

We offer another option: add more of the good stuff.

We build a core corporate bond portfolio and enhance yield through investment grade-credit, manage duration, and seek excess return through trading strategies.

A Core Corporate Bond Fund Plus:

1. **Enhanced Yield.**
Through exposure to investment-grade credit spreads.
2. **Duration Management.**
The expertise and tools to manage interest rate exposures.
3. **Trading Strategies.**
Leverage our expertise and flexibility to capitalize on inefficiencies within bond markets.

The Sum of the Parts:

Enhance yield and return potential through high-quality, transparent and understandable exposures.

- Target yield of 3.5 - 4.5%.
- Investment-grade rated portfolio.
- Weekly liquidity & quarterly distributions.

Portfolio Breakdown

Key Metrics

Portfolio Yield	Interest Rate Duration	Average Term	CR01	Leverage
4.0%	2.1yrs	4.1yrs	8.8bps	2.0x

Portfolio Yield is the weighted average aggregate yield net of borrow cost; IR Duration is an estimate of portfolio sensitivity to 1% change in interest rates; Average Term is weighted average term to maturity of long positions; CR01 is an estimate of portfolio sensitivity for a one basis point change in credit spreads across all credit positions; Leverage based on short positions and borrowed cash as per National Instrument 81-102.
