Additional Information

Investment Objective

- The primary objective of the Fund is to generate positive absolute returns with an emphasis on capital preservation and with a low correlation to traditional equity and fixed income markets. The Investment Manager will seek to achieve this objective by investing primarily in fixed income and derivative instruments of governments, financial institutions and corporations of North American (Canada and United States of America) as well as international markets.

Distributions

- Trust:** The Trust will distribute, in each year such portion of its annual net taxable income and net realized capital gains as will result in the Trust paying no tax, and, unless the Investment Manager decided otherwise, such distributions will be effected through the reinvestment thereof in additional Units of the applicable series of Units of the Trust at the applicable Net Asset Value per Unit computed for the Valuation Date on which such distribution is made.
- LP:** Distributions of allocated income may be made to Limited Partners from time to time at the discretion of the Investment Manager. The Investment Manager has no current intention to make any such distributions.

Management Fee

- The Investment Manager will be entitled to receive a management fee on each Valuation Date that is the last business day of each calendar month in an amount that is equal to 1/12 of the % of the aggregate Net Asset Value of the Class Units as at such date (in each case, Net Asset Value is determined before deduction of the Redemption Deduction, or Profit Distribution, if any, allocable to such Units).

Performance Fee

- The General Partner shares in the profits of the Partnership by receiving distributions from the Partnership on the last business day in each year and upon the redemption of a Unit based on the increase, if any, in the Adjusted Net Asset Value of such Unit above the High Water Mark.
- Units of both the LP and the Trust will be issued **in Series** for the purpose of calculating the Performance Fee applicable to each Investor's Units.
- Sub-Series Roll-up** - At the end of each year, and following the payment of all fees and expenses of the Fund, the Investment Manager may determine that **some or all series of the same class of Units will be re-designated as Series 1 Units** (or other series, in the discretion of the Investment Manager) in order to reduce the number of outstanding series of each class. This will be accomplished by amending the Net Asset Value per Unit of all such series so that they are the same, and consolidating or subdividing the number of Units of each such series so **the aggregate Net Asset Value of Units held by a unitholder does not change**.
