Total assets	316,924	280,704

* **The option-adjusted spread (OAS)** is the measurement of the spread of a fixed-income security rate and the risk-free rate of return, which is then adjusted to take into account an embedded option. **CDOR** stands for the Canadian Dollar Offered Rate. It's a short-term credit instrument (for securities, notes or loans with a term of maturity of one year or less). **CORRA** stands for the Canadian Overnight Repo Rate Average. Unlike CDOR, which is based on what a number of individuals agree upon, CORRA is determined by actual market transactions. It's an average based off designated inter-dealer brokers, including government of Canada collateral repo trades that happened from 6am to 4pm that day.
